

Year 5 Home Learning Spring 1

Please choose two challenges from the grid and be ready to share what you have done on in our year February 11th year group assembly.

You should also be **reading** for at least 10 minutes every day and practising your weekly **spellings** (these will come home each week on a separate sheet).

Continue to practice your times tables

Log on to Times Tables Rockstars and see if you can increase your level!

There will be a battle between the classes. Can you help your class to win?

In DT, we are looking at structures and will be building tents.

At home, build a tent using natural resources. Send us a picture of your finished tents!

Can you write a set of instructions so someone can build your structure?

In art, we will be making totem poles out of clay.

Research, design and make a totem pole that represents your family.

Next half term, we will be performing our Year 5 play.

Can you find a poem, rap, song or extract of a story to perform to the rest of the Year group? Alternatively, you can record yourself and send this in.

Think about tone, volume, expression

In Geography, we will be studying North America.

Choose a country or city to research. Present this as a power point or a poster.
