Module: Keeping/Staying Safe

Topic: Water Safety and Summative Assessment

Years
4-6

Key Facts

- It is important to recognise who to trust and who not to trust and to be able to judge when a friendship is making you feel unhappy or uncomfortable
- It is important to understand how to ask for advice or help for yourself or others, and to keep trying until you are heard
- There are many places to seek advice, e.g. family, school and/or other sources

By the end of these topics, I should:

- identify a range of danger signs
- develop and name strategies that can help keep ourselves and others safe
- recognise the impact and possible consequences of an accident or incident

Ask me a question!

- Why should we take notice of warning/danger signs?
- How can we keep safe at home, at school, and in the community?
- How can we stay safe around open water, such as a river or a lake?

I will learn the following new words/phrases:

Danger	Likely to cause harm or injury. Something that is not safe.
Consequences	A result or effect, often one that is unpleasant.
Water safety	The procedures, precautions and policies associated with safety in, on, and around bodies of water
Water pollution	When harmful substances contaminate a stream, river, lake, ocean.
Hidden currents	A constant flow of water in the ocean.
Warning flags	A flag used to identify or draw attention to a problem or issue to be dealt with.
